

Questions & Answers

1. Will there be a dumpster on site that we can dispose of old air filters in ?

Yes, the filters can be disposed of on site. However, hazardous materials may not be left behind and must be disposed of correctly. – See Section 1, The Schedule, 8.3 Disposal of used oil, fuel, battery and other toxic substances.

2. Are we responsible to supply all belts, filters, and maintenance supplies in this contract? Can supplies be shipped to Stateside address?

The Consulate will provide all required HVAC filters. Other parts and supplies to perform preventive maintenance will be provided by the contractor. They may be brought with the technician to the site or shipped to post by the contractor in accordance with Section 1, The Schedule, 4 Equipment and Performance Requirement, 7.1.2, 8 Personnel, Tools, Consumable Materials and Supplies and Exhibit A Statement of Work, IV. Scope of Work – Chillers Maintenance.
